

"Super charming, super smart, and a super fun, fast filler."  
Richard Ham, Rahdo Runs Through

"A fantastic way to begin or end a game day."  
Edward Uhler, Heavy Cardboard

- **Fun For Everyone.** A real-time game that takes minutes to learn and minutes to play for 2-4 players.
- **Perfect Casual or Filler Game.** With lightweight rules, minimal table space, and fast play time, Lovelace & Babbage fits into any situation or play environment.
- **Diverse Gameplay.** Players build and use the world's first computer together, writing programs and creating their own unique subroutines to compete for influence with famous luminaries of the day.
- **Famous Scientists.** Ada Lovelace, the first computer programmer, and Charles Babbage, the designer of the first computer, are just two of the dozens of scientists players meet.
- **Commitment to Inclusion.** Men and women are represented in equal proportion, allowing more players to see themselves in the game.

# LOVELACE & BABBAGE

**Program the First Computer:** Together in real-time, players build and program the world's first computer, deciding between speed and initiative with thoughtfulness and deliberation.

**Please Patrons, Get Rewarded:** Famous scientists and other luminaries offer prestige in various aspects of society if your programs can solve their problems. Your unique and personal subroutines can help.
