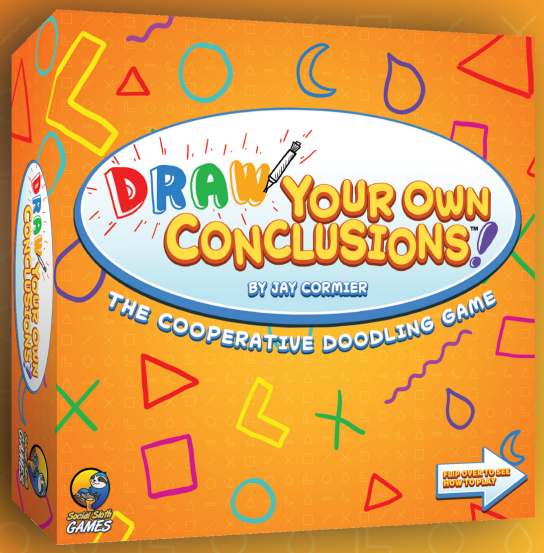
Draw Your Own Conclusions!™

THE COOPERATIVE DOODLING GAME



SUMMARY

Draw Your Own Conclusions is a laugh-out-loud cooperative drawing game for 3 to 8 artists or... "artists". Each round, each player will have a secret word they'll try to get the person to their right to guess correctly. Every player has a unique shape assigned to them like a squiggly line, square, circle or triangle. They and all of the other players will work together to create the drawing by using only up to five of their assigned shape.

CONTENTS
