

Tatamokatsu

In Tatamokatsu, players will have to be fast, agile, and ready to do anything to win! Players roll the 3 dice with only one hand, announce the sum out loud, then do the corresponding action. Depending on the result, some players will lose the use of some of their fingers! They must sharpen their reflexes because only the most valiant warrior can claim the title of samurai!

Tatamokatsu is an original and hilarious party game to play with friends everywhere from author Mektoub Studio and designer Odile Sageat.

KEY SELLING POINTS
