SYNOPSIS

In Fog of Love, players will create and play two vivid characters who meet, fall in love and face the challenge of making the relationship work. They play through cute, awkward or dramatic scenes - from buying flowers and taking that first trip to IKEA to meeting the parents and facing threats of infidelity. Players can work together to create a harmonious relationship, or they can secretly decide to break each other's hearts. As the story plays out, they make choices to either stay true to themselves or act selflessly for the sake of the relationship.
