PACIFIC RAILS INC.

Make your railway in a beautiful engine building Masterpiece!

Dean Morris

Damien Mammoliti

2019 is the 150th anniversary of the completion of the “Trans-Continental Railway”, an epic undertaking that saw the United States connected coast to coast for the first time. In the game, you play as one of the Railroad companies competing to complete the link as fast as you can. To do this, you hire specialist workers, build an economic engine and manage your resource to complete the connections first.
