Ptolus's 672 pages are crammed full of incredibly inspiring content—a breadth and depth of detail unmatched by any other RPG product. The book is uniquely laid out, and filled with thoughtful features, to make it easy for the GM to access that information and make every Ptolus adventure a rich tapestry of immersive details.

But it's still 672 pages. Crammed full of information.

The Ptolus GM Screen puts loads of useful Ptolus info right where the GM needs it. It complements the book's high usability, making it even more of a joy to run. And for the players, there are four panels of stunningly beautiful Ptolus art to set the mood.

- ◆ Screen contents focus on details of the Ptolus setting and easy access to book information.
- ◆ Compatible with both the 5e and Cypher System versions of *Ptolus: Monte Cook's City by the Spire*.
- ◆ An easy upsell to *Ptolus* purchasers excited about running Monte's famed and inspiring setting!
