The perfect wargame for non-wargamers! Two players battle across the war's most iconic theatres, winning key campaigns and building their military might.

Blitzkrieg! is a challenging game with simple rules, a short playing time, and many tough decisions! Close campaigns, win war victory points, gain further resources and special weapons, and exploit strategic advantages as you play.

The Nippon Expansion adds a new challenge to Blitzkrieg! What if the Axis coalition had won World War Two, and Germany invaded and occupied the United States of America? And ... what if Japan then turned on its former ally and invaded German-held America? With the help of Godzilla?

Blitzkrieg! was nominated for Best 2-Player Board Game at the 2019 Golden Geek Awards. It received the Dice Tower's Seal of Excellence and was named the best 2-player game of the year by Tom Vassel! It's rated at 7.8 on BoardGameGeek.com.
