A fast-playing, stand-alone card game based on the world of Steve Jackson's best-selling *Munchkin*. You and your monster buddies are hanging out in the dungeon, just waiting to wallop some munchkins . . . but there are just too many of them!

Play cards by matching either the rank or color of the last card played. Be careful – if you get stuck and can't play a card, bad stuff happens – the munchkins wallop you instead! The first player that gets walloped three times loses the game, and everyone else wins!

### Key Features

- A fast-playing, trick-avoiding game for 3 to 6 players.
- Has the *Munchkins* you love and the monsters you love to hate!
- Portable and plays in 20 minutes.

Includes five hard-to-find promo cards for the classic *Munchkin* game!
